

## **STATEMENT ON THE CURRENT SITUATION IN NAGORNO-KARABAKH**

On behalf of the EPP Women, we firmly declare our commitment to the principle that all forms of violence are considered completely unacceptable. Recognizing that escalating tensions and conflicts invariably lead to the painful consequences of human sacrifice and the break-up of many families, we reaffirm our commitment to the promotion of human rights and democratic values.

With these principles in mind, we urge all international institutions to use their resources and capacities to actively contribute to the resolution of the ongoing conflict. Furthermore, we call on the two parts involved in this conflict to initiate and sustain meaningful dialogues aimed at establishing peace.

Our hope is that through collective efforts we can pave the way for a future in which violence is replaced by peace. Together, we can achieve a world where respect for human rights prevails.

**Rozália Biró.**
